## FINAL WEEK OF BURLEY CAMPAIGN

Enthusiastic Gatherings of Growers  
And Farmers Held Over The  
Entire District

## HUNDREDS OF CONTRACTS IN

Delinquents in signing the Burley Tobacco Marketing Association's contracts have been voluntarily coming in to the office of the Association in the basement of the court house during the past few days. The records of Miss Elizabeth Jesper, who is in charge of the contracts, show that 8,368,770 pounds of tobacco of last year's crop have been signed up to date. This represents 8,175 acres of tobacco and 1,270 contracts. Many active workers in the campaign are still in other counties at work this week.

At the meeting held at the court house yesterday afternoon a large crowd of growers and farmers heard addresses by Chairman Sam Clay, of the Bourbon county branch, James McClure, of Paris, and Chairman Jones, of the Harrison county branch. Several contracts were signed up by growers following the meeting, which was a thoroughly enthusiastic one in all respects.

Hon. Claude M. Thomas, of Paris, who has been engaged in the work in Trimble county during the past week, returned Saturday. Mr. Thomas stated that Trimble county would raise its quota by the middle of this week and that the county had signed up 2,000,000 pounds out of a possible 3,000,000 pounds grown in 1920. Mr. Thomas made a number of addresses at other points.

With meeting of growers all over the district yesterday the campaign for the Association plan entered on the final week. At these meetings enthusiasm prevailed. The campaign will close on November 15.

## PARIS HIGH SCHOOL NOTES

The Paris City Schools will offer many attractive entertainments during November and December.

Misses Lockhart, Noland, Ranson and Mrs. Harris, members of the Lyceum Publicity Committee announce the second Lyceum number, "The Liberty Bells," for November 16.

Misses Whaley, Talbot, Rice and Ammerman announce an unusual day's entertainment, Monday, November 21. This entertainment is very unusual in many ways. It is entitled, "A Trip to China," and will be given by Miss Louise Tucker, of Louisville. Miss Tucker has spent most of her life as a teacher in China.

Prof. F. A. Scott, the business manager of the High School Annual and the business manager of the High School Athletic Association, is preparing for a musical comedy, which will be given November 28 and 29. Mr. Edward C. Barrow, of Louisville, will be the director for this entertainment.

Miss Gilbert Lavin, treasurer of the High School Library Fund, assisted by Misses Dagley, Robbins, Lillard, Harbold, Kelly and Bramlette, announce the very humorous play, "The Microbe of Love," for December 9. This play will have a special director from Atlanta, Ga., who will select the cast from the High School students.

Miss Frances Butler received this week a new shipment of laboratory materials for chemistry, physics and biology. Miss Butler is constantly building up the laboratories and improving the work in her department. Her classes are larger this year than ever before.

Miss Edith Stivers has recently received new charts for use in her First Aid classes, and last week purchased a new agricultural chart. This is the standard chart used in all Smith-Hughes agricultural schools. It has three hundred specimen plants and is a great help in her work. Miss Stivers has forty-two students in her class in agriculture.

Miss Maude Asbury, director of Home Economics, is getting many improvements made in the rooms and equipment used in her department. The kitchen is being plastered, a new pantry made and shelved, a new door put in, dishes and shelves purchased. The cooking department has needed this equipment for some time in order to teach the children how to serve meals.

## HAS ARM BROKEN

A fractured arm was suffered by W. R. Fenwick, boiler inspector for the Louisville & Nashville, at the South Paris shops, when he fell from a ladder in the round house. Drs. Daugherty and Orr were summoned, and gave the injured man medical attention, after which he was taken to his home. Mr. Fenwick was reported as resting very comfortably yesterday.

## STATE ELECTION IS ON TO-DAY

Battle of Ballots In Race For State,  
County and City Offices

Opens

## A HEAVY VOTE EXPECTED

Last night brought to a close the campaign which has been in progress throughout the State for several weeks. Locally there has not been much of a stir, on account of the candidates for city and county offices having practically no opposition. Still, the Democrats have been urged not to forget the dangers of overconfidence, and to go to the polls to-day and deposit their votes for the nominees, whether they have opposition or not.

In the city the voters will be called upon to vote for a City Council ticket. A City Board of Education is also to be chosen. The voters will also be asked to vote on the two amendments to the Constitution taking the office of State Superintendent of County Schools out of politics. In the regular election for county offices the Democratic nominees have practically no opposition. Elections for members of the County Board of Education will be held in twenty-one precincts of the county, but the city of Paris will have no vote in the matter. Candidates for City Council are to be elected in North Middletown and in Millersburg, where five out of seven candidates on the ballot are to be selected.

The race for control of the State Legislature at the session which opens on the first Monday in January, 1922, has been the center of the most interest to Kentuckians during the campaign which was brought to a close on Monday night. Last year the Republicans had a majority in the House of Representatives and on paper had a tie in the Senate with the Lieutenant Governor, a Republican, holding the balance of power. In reality, however, the Republicans did not have control of the Upper House.

On joint session, however, the Republicans had a narrow majority last year.

This year the Democrats start the final race at the polls on Tuesday, with six holdover Senators and seven unopposed candidates, making them certain of thirteen seats in that body. The Republicans start with twelve holdover Senators and three candidates unopposed, including W. A. Kinne, of Stearns, who has been selected to succeed Dr. P. Hoge, of Pine Knot, Republican, who died.

In the House the Democrats start with twenty-nine candidates unopposed, including F. L. Strange, of Bowling Green, and W. G. Wheeler, of New Castle, whose Republican opponents for the honor of representing Bowling Green and Warren county in the Legislature withdrew last week. The Republicans start in the House race with seventeen candidates unopposed.

## MUST GIVE EMPLOYEES TIME TO VOTE

Employers who directly or indirectly violate the Kentucky statute relating to voting privileges of employees, by declining to give workers time off to vote are guilty of a misdemeanor and subject to a fine of not less than \$50 nor more than \$500, according to attorneys, who say that section 1574 of the statutes governing the right of an employee to vote entitle them to "absent himself from any service or employment in which he is then engaged for a period of four hours, between the time of opening and closing of the polls," without being liable to any penalty or deduction of wages for the time lost.

An X-ray examination taken at the hospital, disclosed a fractured hip. His condition is not thought to be serious.

## ARMISTICE DAY COMES FRIDAY

Paris and County Organizations To  
Join In Celebration of Mem-  
orable Event

## MONSTER PARADE A FEATURE

Armistice Day, in celebration of the signing of the armistice between the warring powers of the new and the old world, will be observed Friday of this week, with appropriate ceremonies. It is now three years since the tremendous sacrifice of our allies and the extraordinary efforts of our own country were crowned with victory. On each recurring anniversary the day has been celebrated, and it is already apparent that it has become one of our great patriotic holidays.

This year Armistice Day has an especial significance. It is to be marked at Washington by the meeting of an international conference that is to make a sincere effort to compose the misunderstandings that threaten, even remotely, to disturb the peace of the world. At the National Cemetery in Arlington, Va., the body of an unknown American soldier is to be buried with impressive ceremonies. Far and wide, on city street, and in rural communities, the day will be remembered with public exercises.

Paris is planning to have a monster parade on Armistice Day. The American Legion held a meeting in the court house Friday night and decided to have real celebration. The day will begin with a parade. Practically all the various organizations of the county will co-operate to make this one of the biggest affairs the county has ever had. Among the organizations co-operating to make the affair a success are the American Legion, Y. M. C. A., Boy Scouts, War Mothers, D. A. R., U. D. C. The Confederate Veterans will unite with the Daughters of the Confederacy. The Millersburg Post of American Legion will join with the Bourbon Post, both in uniform. The Y. M. C. A. Boys' Band and the City Band will furnish music.

Business houses and individuals may enter floats or decorate cars. Prizes will be offered to the three best floats entered in the parade. There will be a patriotic program at the High School with special solos and a speech by Rev. D. M. Walker, pastor of the First Christian church, Shelbyville. The Domestic Science department of the High School, under the leadership of Miss Asbury, will co-operate with the American Legion in furnishing food for all ex-service men. In the afternoon there will be a football game between the Paris High School and Somerset.

At a meeting of the American Legion Friday night, three committees were appointed to carry forward the arrangements. Finner Galloway, representing the Legion; W. E. Hacker, representing the Commercial Club, and Miss Belle Roberts representing the Community Service on the parade committee; Bernd Santen to co-operate with Professor Kirkpatrick on the program. Rev. T. S. Smylie and Bernard Santen on publicity committee.

All the ex-service men the county are urged to take part.

## FOOTBALL NOTES

Paris High and Mt. Sterling High played a scoreless game on McClintock Field, Friday afternoon. Paris had the ball within a few yards of the goal line several times, but lost the ball to the visitors each time. Tucker and Nash starred for the locals, while Davis did the best work for the visitors.

Several notable games marked the calendar for Saturday. Centre College defeated the University of Kentucky team on Cheek Field, at Danville by a score of 55 to 0; Princeton defeated Harvard in the game at Princeton, by a score of 10 to 3 in one of the most thrilling and spectacular games played by these teams in recent years; Newport High School defeated Winchester High at Newport by a score of 21 to 14; Carlisle High School defeated the strong and heavy Cynthiana High School team at Carlisle by a score of 13 to 0.

## SUNDAY SHOOTING OVER CRAPS

As the result of a quarrel which occurred between two colored men, Frank Mussion, and "Boose" Holman, which occurred in a house on Cypress street Sunday afternoon, took three shots from his trusty gun at Holman, all three taking effect in the abdomen. Mussion claimed Holman, among other things, applied an opprobrious epithet to him. Mussion after the shooting, escaped, but was found later and placed under arrest by Sheriff McClintock, and taken to jail. Holman was taken to the Massie Memorial Hospital, where it was stated that his condition was critical in the extreme.

Of this amount \$2,900 has already been secured, the Bourbon County Fiscal Court contributing \$500. The people of Bourbon county have shown great interest in the work of the Society, whose able Superintendent, Mr. George Schon, is a frequent visitor here in the homes of Bourbon county people.

## EDITORIAL FLINGS

**The Day's Best Thought**  
Don't dwell on the human side, the frailty side, of your nature; dwell on the better side, this is the element which is going to redeem you. It is the best in you, not the worst, that is going to bring you to your own.

No railroad strike, and plenty of medical beer and wine. What more could a reasonable American want?

We have known some people who never impressed us as being really bad until we had seen them in an amateur performance and were convinced that they were rotten.

His arm around her slender waist. She nestled close in sweet content; Not even a Borach's eloquence Could make her want "disarmament."

Every now and then you hear the outcry that prices have not receded, but the man who pays a Paris butcher or grocer sixty cents a pound for breakfast bacon and \$15 to a shoe dealer for his shoes is a victim of vanity and not of circumstances.

The daily papers are making a great fuss over the perfecting of a system whereby the chimes of San Francisco will be heard at the National Cemetery in Arlington, Va., on Armistice Day. Pshaw! That's nothing! We've heard The Chimes of Normandy here in Paris, several times!

The jeweled arch at the end of the Avenue of Light will be Washington's sublime porte for the Disarmament Conference. The sick man of the world, the emaciated, tottering taxpayer, looks toward the sublime porte, regretting that the American Senate did not make the Avenue of Right and render unnecessary the Avenue of Light.

## THERE ARE FEW THIEVES

Ninety-nine out of every hundred Americans are honest, says Frederick N. Withey, vice-president of a big bonding company.

Withey's company has written 7,000,000 bonds for cashiers, treasurers and others entrusted with money. Of these, only one in a hundred stole and only one in a hundred thousand "hit the wrong road out of downright criminal intent."

A criminal is the rare exception. That's why you read about him in the news while honest men go unnoticed.

# Lowest Prices Ever Quoted

## on Titan and International Tractors

The Harvester Company has made another big price cut on Titan and International Tractors. This reduction wipes out all former advances and puts these tractors at the lowest prices at which they have ever been sold. We are offering:

**International 8-16, \$900**

This price is about one-fourth less than that of March 1, 1921. The new price includes all necessary equipment—platform, fenders, governor, belt pulley—which cost extra on some tractors.

**Titan 10-20, \$900**

This is the lowest price ever quoted on the Titan, considering equipment included (formerly sold extra). At this price the Titan 3-plow tractor is the best value in the farm power field.

**International 15-30, \$1,750**

This also is lower than any former price. You cannot find a better 4-plow tractor for the money.

All prices are f. o. b. Chicago. The Harvester Company advises us these prices are made regardless of manufacturing costs and that they do not guarantee to maintain them. These prices certainly justify the immediate purchase of a tractor.

We can arrange suitable terms for you. Come in and see us.

#### \$15,000,000 KENTUCKY'S SHARE OF ROAD FUND

Passage of the \$75,000,000 federal highway appropriation will mean an additional \$1,500,000 to \$1,600,000 of the federal funds to be spent on Kentucky highways within the next two years. State Highway Engineer Joe S. Boggs estimated. The sum that will come to Kentucky, he said, is only a rough guess at this time.

The bill provides \$25,000,000 to be immediately available for distribution to States which have complied with federal aid regulations. Mr. Boggs said, and that \$50,000,000 should be available the first part of 1922. The States are to have two years in which to spend the money under the bill, which, according to a telegram received, was finally passed by Congress, and sent to the President for his signature.

The division of the \$75,000,000 fund created by the new measure is to be made, it is understood, according to Mr. Boggs, on the basis of one-third mileage of roads in the State, one-third for population and one-third for area. Sixty per cent of the fund is to be used on main national highways, such as the Dixie Highway and the Jackson Highway, and 40 per cent on secondary roads, which correspond to the main State trunk highways.

#### THE HOME TOWN

We live in this town because we believe in it. We believe in it because it is a good town, regardless of its few defects and its people are the peers of those to be found anywhere.

This town may not have the wealth of some more favored communities, but it has character, and character is a possession which cannot be purchased with gold.

If you believe in your home town you will like it, and if you like it no effort toward its improvement will be too great for you.

Again we ask you to have faith in your own powers; to also have faith in your own town.

When you feel like criticising it, check the thought before it is spoken. You can always find something good to say instead, and even then the half of the truth will never be told.

It is a good town now, but faith, loyalty and united action, will make it a better one.

Our faith in this town, brother, is simply faith in you, because the town is a collection of yours.

Surely your faith is not less than ours.

Let us unite—let us act—for a more cohesive community.

It is your home—and ours.

#### THE NEW ERA

As women check up the first year of their political enfranchisement Mrs. Florence Hilles, new chairman of the Woman's Party, comes out with 37 recommendations for giving women equality with men.

Most interesting of these is "the right of women to keep their maiden names after marriage."

Time brings strange changes. The day may come when John Smith marrying Susan Browne, will have to change his name to Mr. Susan Browne.

Some people pack up their joys in their old kit bags and whine, whine, whine!

#### DOG DIES WITH HIS EQUINE FRIEND

During the burning of the garage at 13th and Stewart, Kansas City, Kan., a little ownerless dog sacrificed his life that he might share the fate of a horse that died in the flames. The horse was bought from a trade and used for hauling a small ice wagon.

After the arrival of the horse the dog was first noticed about his stall. The dog had many friends among the boys in the neighborhood and divided his time with them, but never failed to pay a daily visit to the horse and sometimes followed the wagon on its rounds.

Several attempts were made to rescue the horse from the rapid spread of the fire but the fear of explosions from oil and gasoline prevented the rescuers from reaching the animal.

The dog accompanied each one who attempted to reach the horse and was brought back forcibly several times, but finally sprang in alone and made his way through flames and falling timbers and died beside the friend he could not save.

#### THE CONSTITUTIONAL AMENDMENTS

That the people of Kentucky, of whatever political faith, can and do disregard differences of political opinion and work together on any vital issue that promotes the general welfare of the entire State, is abundantly evidenced by an advertisement which appears on another page in this issue, drawing the attention of all voters to the great need of amending the constitution at the coming election to permit of removing the administration of our educational system from the smothering influence of partisan politics.

The advertisement referred to is being released in more than one hundred papers throughout the State, and in the list of citizens contributing toward the cost of this publicity are men and women of both political parties representing every section of the State.

It is high time that we, in Kentucky, took this forward step. Our present system, never the best, is now old and antiquated. The State in its progress has outgrown it. It no longer serves the needs and demands of our 20th century progress. The change should have been made years ago. Other States are ahead of us in this respect.

The question involved is not one of partisan politics, but one that reaches into the heart of every man and woman in the commonwealth, regardless of his or her politics, and it is refreshing to note that leaders and people alike, from both parties, all over the State are uniting on this vital issue of amending the constitution to make possible the improvements in our educational system that will give to the school children of Kentucky equal educational advantages with the children of other States. By all means, let us vote "Yes" on both amendments.

You can't keep from a grouch occasionally, perhaps, but you can keep your mouth shut if you try.

#### KENTUCKY LEADS IN PRODUCE OF RACES

Kentucky leads all the States in the number of thoroughbred horses on farms in 1920, according to the report of the United States Census Bureau on pure bred horses on farms, classified as to breed.

The figures show that there were 19,767,161 horses on the farms of the United States on January 1, 1920, of which but 120,540 were pure bred. Only six-tenths of one per cent of the horses in the country were pure bred, according to these figures. And out of the number Kentucky had 3,491 pure bred studs.

Illinois leads all States in pure bred horses, with 15,559. Iowa has 15,450 and the District of Columbia has none, with the other States in between.

Kentucky had 373 American saddlers, 26 Belgians, 4 Clydesdales, 4 French drafts, 15 German coaches, 174 Percherons, 329 standard bred, 1,247 thoroughbreds and 1,319 pure bred horses with breed not specified.

Only 3,707 thoroughbred horses were reported in the entire country in 1920. Of this number Kentucky lead with 1,247; Virginia had 532 and Maryland 272. No other State had so many.

## FLEMING COUNTY IN OIL PRODUCING TERRITORY

It is reported that Fleming is the latest Kentucky county to join the ranks of the oil producers of the State. An oil well in the vicinity of Colfax, Fleming county, which was drilled 300 feet four years ago by Fleming county oil men and abandoned after a showing of oil was made, blew in this week scattering oil for some distance. The well continues to flow, says a dispatch.

An examination of the oil has been made and declared by those who have tested its ingredients to be a highgrade Somerset oil. The abandoned well is in the neighborhood of a well now being drilled by Chicago interests, which has reached a depth of 1,000 feet with only a slight showing of oil.

Mr. Bruce Miller, who has been editor and publisher for many years, retires from active work because of continued illness.

In a card to the public Mr. Miller states his reasons for giving over the property to other hands, mainly on account of his bad health, and upon the advice of his physicians. Mr. Miller has been owner of the paper since the death of Col. John G. Craddock, several years ago. Mr. Lilleston, in his statement to the public, promises to carry out the policies of the former management.

## BALLOT FOR CLUB OFFICERS

Great interest is being displayed in the approaching annual primary election for officers and Board of Directors for the Paris Commercial Club. Ballots for the purpose of making nominations for the offices have been mailed out by Secretary Wm. E. Hacker, and many have already been returned to the office of the Club.

The balloting will close at eight o'clock, Thursday night, when the election committee, composed of Hugh Brent, John F. Davis, J. J. Veatch, Chas. Green and Monroe Mansfield, will count the returns. The three receiving the most votes for the respective offices will be placed on the ticket for the general election, to be held on Tuesday night, November 22. At this time a banquet will be served to the members of the Club.

A committee of which Bernard J. Santen is chairman is making arrangements for this event. The program will include music and an address by a noted public speaker. A special effort is to be made to get a full attendance of the Commercial Club members at the annual meeting.

## NOVEMBER COURT DAY

November Court Day was attended by an unusually large crowd yesterday, drawn from the most part from the farming element, and others interested in the success of the tobacco marketing plan. It being the day before election, candidates were busy with voters, but not to so large an extent as in former years. The stock market seemed to be active, more horses being on the market

than at previous court days. Some cattle and mules changed hands at good prices. Merchants report business as being only medium, with collections fair. In the afternoon a meeting of tobacco men at the court house drew a large crowd from the streets. The usual street beggars, blind musicians and leather-lunged "evangelists" were in evidence.

### COUNTY TAXES DUE

Owing to misinformation many taxpayers were under the impression that the penalty for non-payment of county taxes took effect on November 1. This, of course, was a mistake, but one that helped to swell the revenue in the Sheriff's office, as taxpayers hurried to get their receipts. The penalty for city taxes went on November 1, but the date for county taxes is December 1, when the penalty will be applied.

Sheriff McClintock and deputies are ready to receipt for taxes due the county, and, in the language of Deputy Sheriff James Gibson, "there's a reason."

**Mrs. Williams Tells How  
Lydia E. Pinkham's Vegetable  
Compound Kept Her  
in Health**

Overpeck, O.—"Lydia E. Pinkham's Vegetable Compound helped me both before and after my baby was born. I suffered with backache, headache, was generally run down and weak. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and decided to try it. Now I feel fine, take care of my two boys and do my own work. I recommend your medicine to anyone who is ailing. You may publish my testimonial if you think it will help others."—Mrs. CARRIE WILLIAMS, Overpeck, Ohio.

For more than forty years Lydia E. Pinkham's Vegetable Compound has been restoring women to health who suffered from irregularities, displacements, backaches, headaches, bearing-down pains, nervousness or "the blues." Today there is hardly a town or hamlet in the United States wherein some woman does not reside who has been made well by it. That is why Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for such ailments.

## KENTUCKY FACES POSSIBLE NATURAL GAS SHORTAGE

Kentucky cities, which depend on natural gas for lighting and heating purposes, are facing the prospects within a few years of having to go back to coal entirely for heating and artificial gas or electricity for lighting unless something is done to prevent manufacturers of carbon black entering the Kentucky gas field promiscuously, Dr. W. A. Jillson, director of the Kentucky Geological Survey, declared. There are a number of carbon black factories in Eastern Kentucky and several others have been projected, Dr. Jillson said.

Carbon black is used for printer's ink, being the only successful substance for inks for high-speed presses, automobile tires, stove and shoe polishes, phonograph records, black leather, book binding, carriage cloths, celluloid, electric insulators, cement colors, crayons, drawing and marking inks, artificial stone, black tile, trappulins and many other uses. It is manufactured by burning natural gas against a polished steel surface and then gathering the resultant soot.

Kentucky has twenty-two known gas fields. Five of these, the Diamond Springs field in Logan county, Menifee county, Meade county, Cloverport, in Breckinridge county, and Martin county, are what the geologist called the "Gas Pools of Yesterday." In Menifee and Martin counties some gas still is taken from the pools, but the others have been exhausted.

## WIRES ELIMINATE TIME AND SPACE

More than any other enterprise, the telephone industry in a comparatively short period of existence has outdone all other endeavors to conquer time and distance. Through an extensive and intricate network of wires, reaching in all directions throughout the country and connecting more than 13,450,000 telephones in the United States, the telephone industry provides a means of direct intercommunication that is unequaled in speed by the telegraph, mails, railroads, aeroplanes or any other existing means of intercommunication.

## ARE YOU RHEUMATIC?

Many Pangs That Pass For Rheumatism Are Really Due to  
Weak Kidneys

Is it rheumatism?  
Not every pain is.  
Weak kidneys let uric acid collect. Uric acid causes many queer pains. In the thigh it's sciatica; In the back, lumbago; In the nerves, neuritis. Gout, gravel, dropsy are uric troubles.  
When you suspect the kidneys use Doan's Kidney Pills—  
The home-recommended remedy. Paris testimony is the best proof. Ask your neighbor.  
Read this Paris woman's story: Mrs. L. N. Reynolds, 255 Winchester St., says: "I have found Doan's Kidney Pills to do me more good than any remedy I have ever used and I recommend them highly. I suffered from rheumatic pains and kidney trouble. I could always tell when the weather was going to change, as my limbs would become very painful. I would become dizzy, especially when I first got up in the morning. My kidneys were not acting regularly either. I was not long in getting relief after I began using Doan's Kidney Pills and felt better in every way after using them."  
Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Reynolds had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

## TELEPHONES FIT PATRON'S HEIGHT

"Speaking of service!" exclaimed the traveling man as he stood in front of one of the telephone booths in the Pennsylvania Station "and consideration of the public. You'd never get that anywhere except in New York."  
"Well," grinned a guard who was standing by, "we strove to please, so when we found that some folks were too short to reach the telephones if they were high, and others almost bend double to talk over them if they were low, we decided we'd have them arranged accordingly. So we have some for the tall guy and some for the little dolls, and a few that both can use, as they've got stools before them to sit on if you're lucky enough to get one."—New York Sun.

# MEDICAL SOCIETIES OF STATE TO DISCUSS "CANCER"

Every county medical society in Kentucky will hold a symposium on cancer during the weeks October 30 to November 5 as a part of Kentucky's observance of "Cancer Week." Dr. Irvin Lindenberg, State Chairman of the Committee that is co-operating with the American Society for the Control of Cancer, announced to-day.

"While thousands of persons are dying every year of this dread disease," he said, "it is curable if detected in its earliest stages. Carrying knowledge of this fact to the people of Kentucky is one of the objects of the present campaign. The other object is to emphasize the fact that, where this early diagnosis has been had, the person suffering immediately should obtain the best medical treatment procurable.

"Any unnatural lump or hardness is to be regarded as potential cancer until proved by competent examination to be otherwise. That is especially true of the breast, abdomen, lips and mouth. Any enlargement or tumor in any portion of the body which can be detected by sight or touch, which persists and which increases in extent, should be subject to examination

by those competent to make it. "Cancer invariably begins as a local disease and if recognized at this stage can be surely and permanently cured if accessible. Any unnatural discharges from the internal organs, especially at and after the age of 35, should be regarded with especial suspicion."

## IMPORTANT DECISION FOR CITY EDUCATION BOARDS

City boards of education in this State have authority under the act of 1920 to condemn property for school buildings. This ruling was made by the Appellate Court affirming the Mercer Circuit Court in the case of William Con Bell's committee against the Board of Education of Harrodsburg. The right of eminent domain granted by section XIII of the constitution to acquire land for public purposes is held by the court to include city boards of education. Bell was given \$18,000 damages for the land condemned, \$2,000 for damages to the land left, and \$400 incidental damages for the small tract of land condemned by the school board in Harrodsburg.

The main reason why the Congressional Record is so expensive is that it carries so much free advertising.

# LIVED YEARS ON BREAD AND MILK

For More Than Decade Malady Of Alabama Woman Was Continually Sapping Her Strength

Mrs. H. P. Barrett, of Republic, suburb of Birmingham, Ala., gives the facts of her remarkable experience with Tanlac as follows:

"During the past fourteen years I have spent more than one thousand dollars trying to get rid of a complaint that was gradually sapping my strength, but until I got hold of Tanlac nothing helped me. For the past four years I have lived almost entirely on milk and bread, and finally even that went against me.

"Before I had finished the first bottle of Tanlac I got so I could eat anything, and I certainly vied the day I first got this medicine, for I believe it has added years to my life. The people in my neighborhood were so surprised at the change in me that fourteen of them by actual count are now taking Tanlac."

Tanlac is sold in Paris by the Peo-anthyn, and I certainly bless the ple's Pharmacy, and by all leading drug stores everywhere.

## MARINE CORPS REPRESENTATIVE AT AMERICAN'S FUNERAL

Gunnery Sergeant Ernest A. Janson has been selected to represent the men of the Marine Corps at the burial of the unknown American hero in the Arlington National Cemetery, Armistice Day, Nov. 11. Janson, together with several non-commissioned officers of the army, all of whom have overseas records, will act as pall-bearer.

Janson's record was divulged recently at the Marine Corps recruiting office, Indianapolis, Indiana, where it was said that he received the Congressional Medal of Honor, the highest American award for bravery. He also holds the Navy Medal of Honor, the French Military Medal and Croix de Guerre with palm, the Italian War Cross and the Montenegrin silver medal for bravery.

The citation for which Janson received his American decorations follows:

"For conspicuous gallantry and intrepidity above and beyond the call of duty in action with the enemy near Chateau Thierry, France, June 6, 1918. Immediately after the company to which he belonged had reached its objective on Hill 142 several hostile counter attacks were launched against the line before the new position had been consolidated. Sergeant Janson was attempting to organize a position on the north slope of the hill when he saw twelve of the enemy, armed with five light machine guns, crawling toward the group. Giving the alarm he rushed the hostile detachment, bayoneted the two leaders and forced the others to flee, abandoning their guns. His quick action, initiative and courage drove the enemy from a position from which they could have swept the hillside with machine gun fire and forced the withdrawal of our troops."

Gunnery Sergeant Janson enlisted in the Marine Corps in 1910 and is now on duty at the recruiting station in New York.

### LAW ENFORCEMENT

The people of Kansas City have shown what an outraged public sentiment can do when genuinely aroused, in spite of the negligence of public officials.

During the early part of 1920, criminals of every sort overran the city, causing a veritable reign of terror. Finally the leading citizens' organizations decided that the only way to get relief was to take things into their own hands.

A law enforcement association was formed, its motto being, "Clean Up Kansas City."

There has been a steady improvement in the situation ever since. During the first five months of 1920 there were 19 murders and 1,183 burglaries. During the same period in 1921 there were but nine murders and 695 burglaries, about a 550 per cent cut in these two classes of crime. Highway robberies and auto thefts showed a like decrease.

The moral of all this is just this: There is no reason why the people of any other town cannot do what the people of Kansas City have done if they will act with the same energy and intelligence.

## MORE ABOUT THE NOTED BAKER ESTATE

The following clipping from a Philadelphia paper, sent to THE NEWS, tells of another angle in the noted Baker estate case, in which some time ago, several Paris "heirs" saw visions of a large fortune looming up, ready to lap off the bushes:

"Governor Sprout denied to-day he had promised support to a new legal fight to reclaim for the Baker heirs an 'estate' which includes the site of the City Hall and the best central real estate in the city.

"A Philadelphian, calling himself 'Mr. Rice,' has been retained for \$2,000 by the Canadian group of descendants of the land owner, to go after the property. 'Mr. Rice' told William Baker, president of the Baker Heirs, Inc., his efforts would have the backing of Governor Sprout and the political bosses of the State.

"I don't know any Mr. Rice," the Governor said, "and I never approved the cause of the Baker Heirs. I have heard about the estate from time to time, but I am sure it is legally impossible to claim it. Lawyers who have engaged themselves to recover the estate knew that it couldn't be done."

"The plan outlined by 'Mr. Rice,' when the president of the Bakers visited this city, was reported at a meeting of the heirs in Toronto last week.

"Mr. Rice' took Mr. Baker out to City Hill plaza to stand on some of his own property. 'Mr. Rice' said he would form the Finance Corporation of the United States as a preliminary step to scooping up the heart of Philadelphia."

There are a whole lot of people, alas! who think we will never have good government unless they are elected to office.

There is nothing more comforting, says the village philosopher, than picking your teeth after eating roasting ears.

## GREGORY

—Following an illness of several weeks' duration, due to frequent attacks of acute bronchitis, Mr. Richard Gregory, aged seventy-five, a well-known farmer, died yesterday morning at his home, the old Prather place, on the Peacock pike, near this city. Mr. Gregory had been confined to his bed but a short time, but the disease which caused his death had kept him a "shut-in" several weeks.

Mr. Gregory was a son of the late Mr. and Mrs. George Gregory, and was born in County Kerry, Ireland. Coming to America at a tender age he soon became imbued with all the ideals of a true American and became one of the staunchest supporters of his adopted country. He came to Bourbon county in his young manhood, and engaged in farming, in which he was highly successful. He was true to all the principles that go to make a good citizen, and his memory will be long revered by those who knew him best.

Mr. Gregory is survived by his widow, who before her marriage was Miss Margaret Conway, one daughter, Miss Elizabeth Gregory, chief clerk in the office of the Paris Water Company, and one sister, Mrs. Kate Dillawn, of Taylor, Texas. The funeral will be held at the Church of the Annunciation in this city at 9:30 o'clock, to-morrow morning, with services conducted by Rev. Father William Hare. The burial will follow in the Catholic Cemetery. The pall-bearers will be: James Shea, John Tooley, Jno. McCarthy, Thos. Conway, Jas. Higgins and C. B. Gregory.

## GOVERNOR SUGGESTS TREES AS HEROES' MEMORIAL

In his Arbor Day proclamation, Gov. Edwin P. Morrow suggests that on Saturday, November 12, Arbor Day, trees be planted in memory of the American soldier, sailor and marine who took part in the World War.

The proclamation follows:

"The People of Kentucky: Greetings:

"Saturday, November 12, is hereby designated as Arbor Day, and those who love Kentucky, who desire to preserve its beauty and to conserve its forest resources, are earnestly urged on that day to plant trees in their homes, along the roads and in their fields, to give some thought and attention to their woodlands and the regrowth of forest life and the preservation of that which already exists.

"This date is fixed because it is believed that planting at this time of the year will be most satisfactory and will produce the best results, and it is also fixed following Armistice Day, when trees can be planted in memory of the American soldier, sailor and marine.

"Given under my hand, as Governor of the Commonwealth, this 31st day of October, 1921.

"EDWIN P. MORROW,  
Governor."
